SUMMARY

I am an aspiring Front-end developer focusing on React.js, driven by a passion for using cutting-edge technologies to build dynamic and engaging solutions. I hold a degree in Internet Programming and Development and have gained extensive experience in a wide range of programming languages and frameworks. With a proven ability to collaborate effectively with senior developers, a strong work ethic, and a desire to succeed, I am eager to continue learning new technologies and expanding my skill set.

SKILLS

- HTML5, CSS, Bootstrap, Sass, Tailwind
- JavaScript ES6, TypeScript
- React.js and Next.js, JEST
- Data handling using AJAX, REST API and GraphQL
- Good Knowledge of OOP(Java)
- Familiar with ASP.NET and Laravel
- Good Knowledge of Node.js and Express and PHP
- Experience working with Database Manager (SQL Server, MySQL, Firebase, Sanity)
- Experience working with CMS like WordPress, including custom theme and plugin development
- Tools: GIT, NPM, Docker, Figma
- Methodologies: SCRUM, AGIL

WORK EXPERIENCE
